

## ACCESSIBILITY PLAN

### Thirsk School & Sixth Form College

#### Aims

Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- Increase the extent to which disabled pupils can participate in the curriculum.
- Improve the physical environment of the school to enable disabled pupils to take better advantage of education, benefits, facilities and services provided.
- Improve the availability of accessible information to disabled pupils.

Our school aims to treat all its pupils fairly and with respect. This involves providing access and opportunities for all pupils without discrimination of any kind (see DEI Policy).

Our school is committed to promoting equality, diversity, and inclusion in line with the **Equality Act 2010** and the expectations set out in the **Ofsted Education Inspection Framework**.

We uphold the following principles:

- **Compliance with the Equality Act 2010:** We actively work to eliminate discrimination, harassment, and victimisation, and we make reasonable adjustments to ensure that pupils with disabilities are not placed at a disadvantage. We recognise and support all protected characteristics, including race, disability, gender, religion or belief, sexual orientation, and others.
- **Public Sector Equality Duty (PSED):** We have due regard to the need to:
  - Eliminate unlawful discrimination and other prohibited conduct.
  - Advance equality of opportunity between people who share a protected characteristic and those who do not.
  - Foster good relations between different groups within the school community.
- **Inclusive curriculum and environment:** In line with Ofsted's expectations, we provide a broad, balanced, and inclusive curriculum that reflects the diversity of our pupils and prepares them for life in modern Britain. We ensure that all pupils, including those with SEND, have access to high-quality teaching and learning.
- **Policies and training:** Our policies on behaviour, safeguarding, admissions, and recruitment reflect our commitment to equality. Staff receive regular training to ensure they understand their responsibilities and can support all pupils effectively.
- **Monitoring and accountability:** We regularly review our practices and outcomes to ensure that no group is disadvantaged. We publish equality objectives and monitor progress towards them, as required under the Equality Act.

Through these values and actions, we aim to create a school culture where everyone feels

respected, valued, and able to thrive.

The plan will be made available online on the school website, and paper copies are available upon request.

Our school is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

The school supports any available partnerships to develop and implement the plan such as the Local Authority.

Our school's complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility in school, the complaints procedure sets out the process for raising these concerns.

## Legislation and Guidance

This document meets the requirements of [schedule 10 of the Equality Act 2010](#) and the Department for Education (DfE) [guidance for schools on the Equality Act 2010](#).

The Equality Act 2010 defines an individual as disabled if they have a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on their ability to undertake normal day to day activities.

Under the [Special Educational Needs and Disability \(SEND\) Code of Practice](#), 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for pupils with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled pupil faces in comparison with non-disabled pupils. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

## Monitoring Arrangements

This document will be reviewed every **3** years but may be reviewed and updated more frequently if necessary. It will be reviewed by the SENDCO and Headteacher.

It will be approved by the Governing Board.

## Links with Other Policies

This accessibility plan is linked to the following policies and documents:

- Health and safety policy
- DEI Policy
- Special educational needs (SEN) information report
- Supporting pupils with medical conditions policy
- Risk Management Policies

Schools must make reasonable adjustments in anticipation of disabled pupils' needs, not just in response to individual cases.

This includes the provision of auxiliary aids and services, such as adapted keyboards or hearing loops, where necessary.

This plan also supports the school's compliance with the Public Sector Equality Duty (PSED).

In carrying out their functions, public bodies are required to have due regard to the need to:

- Eliminate discrimination and other conduct that is prohibited by the Act,
- Advance equality of opportunity between people who share a protected characteristic and people who do not share it,
- Foster good relations across all characteristics - between people who share a protected characteristic and people who do not share it.

## ACCESSIBILITY AUDIT CHECKLIST

1	Curriculum	YES	NO	N/A	NOTES
1.1	Do you ensure that teachers and teaching assistants have the necessary training to teach and support disabled pupils?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	CPD programme covers a range of specific needs although we do feel we could develop further training around physical needs. Tas and those working more closely with any student with physical needs have had more training eg hoist training etc.
1.2	Are classrooms arranged in a way that enables full and independent access for disabled pupils, including appropriate space, layout, and resources to support their needs?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Yes, as SEND department direct the site and teaching teams as to what works best for specific students. We have an accessible lift for A block but re-room other second floor lessons within school that cannot be reached via the lift.
1.3	Do lessons provide opportunities for all pupils to achieve?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	But – we feel again this is an area that needs to be developed further.
1.4	Are lessons responsive to pupil diversity?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Training around adaptive teaching, inclusion enrichment drop down day, CLs have highlighted areas linked to diversity.
1.5	Do lessons involve work to be done by individuals, pairs, groups and the whole class?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
1.6	Are all pupils encouraged to take part in music, drama and physical activities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	We have a wealth of extra-curricular opportunities available.
1.7	Do staff recognise and allow for the mental effort expended by some disabled pupils, for example using lip reading?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	This is not good enough – we would prefer partially as some staff have become good at dealing with such issues, but not all. This needs to become a focus in terms of training/reminders.
1.8	Do staff recognise and allow for the additional time required by some disabled pupils to use equipment in practical work?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
1.9	Do staff provide alternative ways of giving access to experience or understanding for disabled pupils who cannot engage in particular activities, for example some forms of exercise in physical education?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	We would like to seek further assurances from CLs around knowing that ALL staff within departments are doing this.
1.10	Do you provide access to computer technology appropriate for students with disabilities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	But, this could be better organised.
1.11	Are school visits, including overseas visits, made accessible to all pupils irrespective of attainment or impairment?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
1.12	Are there high expectations of all pupils?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Again this could be even higher especially if you consider our outcomes for vulnerable learners.
1.13	Do staff seek to remove all barriers to learning and participation?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Yes, but again this could be improved through more training and development.

2	Approach from public transport to school entrance gates	YES	NO	N/A	NOTES
2.1	Is the route to the school entrance from the nearest point of public transport, well signed, well lit, free of broken slabs, etc.?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

2.2	Are there separate entrances for cars and pedestrians?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	But we know that both entrances are in need of improvement due to increased student numbers and the age of the building.
2.3	Is the route wide enough, and free of kerbs?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	1.1m – 1.5m width of path Width meets minimum expectation but the overall repair of the school is old and therefore worn/tired.
2.4	Is there an option for a quiet route for pupils that might struggle in busy and noisy environments?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	This is useful for pupils with autism and/or mental health issues that are perhaps having a low mood day.

3	Car Parking	YES	NO	N/A	NOTES

3.3	Are accessible car parking bays signposted from the car park entrance?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
3.4	Are accessible parking bays marked out and easily identified?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	As a minimum there should be side chevrons, but ideally chevrons on three sides as you enter the parking space so people removing wheelchairs or walkers from the boot can do so safely.
3.5	Are these bays wide enough and long enough to allow transfer onto a wheelchair?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
3.6	Are the bays smooth, (free from loose stones), well lit, and signposted as being identified for disabled people only?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

4	External Ramps and Steps	YES	NO	N/A	NOTES

4.2	If no permanent ramp is provided, can a portable ramp be made available?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
4.3	If steps are part of the route to the building, do they have contrasting nosing on the steps and a handrail?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	There should be a light or dark colour contrast on the front part of the step so that people with visual impairments can see it.
4.4	Do steps have lighting available?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Issue re fire escape steps at back of E block as lighting was an issue for housing. This has been checked by Fire Safety as OK.

<b>14.2</b>	Is the bathroom provided with fittings suitable for use by people with disabilities including assisted use?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
<b>14.3</b>	Are all fittings easily reached and operated?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
<b>14.4</b>	Are all fittings readily distinguishable from their background?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
<b>14.5</b>	Does the floor have a slip resistant finish?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
<b>14.6</b>	Is a hoist provided?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Not in a bathroom, in two accessible WCs

<b>15</b>	<b>Horizontal Movement Fixtures and Fittings</b>	<b>YES</b>	<b>NO</b>	<b>N/A</b>	<b>NOTES</b>
<b>15.1</b>	Is each corridor/passageway/aisle wide enough for a wheelchair user to manoeuvre and for other people to pass?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	1.5 meters is the recommended minimum width, although some historic and older buildings may be narrower than this.

<b>15.2</b>	Is each corridor free from obstruction to wheelchair users and from hazards to people with impaired vision?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	This could be furniture or apparatus such as fire extinguishers sticking out but not obvious, due to colour contrast or other objects obscuring them. This could also be 'dog legs' in the corridor or where rooms go out onto corridors that pose a risk of people walking into others; viewing mirrors on the ceiling can help with this.
<b>15.3</b>	Are there good colour contrasts between walls, doors and flooring to enable people with a visual impairment to navigate and detect hazards?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	There should be at least a 30-point LRV difference in colour. (LRV value is on all colour cards found in paint shops – 1 is white, 100 is black)
<b>15.4</b>	Are arrangements in place for alternative arrangements for people who may struggle with noisy or echoey spaces, including corridors?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	This can have a negative impact on some people that are hard of hearing, some people with Neuro-diversity and people with visual impairments and can be partially avoided by having some furniture that sound bounces off, or soft art on the walls/ceilings that absorbs noise. Yes, but limited due to the age and subsequent layout of the building.
<b>15.5</b>	Do lobbies allow all users to clear one door before approaching the next with minimal manoeuvre?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Lobbies can be any area where there is an entrance door and exit door to the destination area, usually quite small. Example: some toilets have a small lobby between the corridor and toilet or corridor to a lift.  Yes to everywhere apart from music where there are double soundproofing doors.
<b>15.6</b>	Is turning space in lobbies adequate?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Normally marked as a 1.5 metre area, but some powered chairs might need a larger area.
<b>15.7</b>	Are doors within corridors and entering rooms accessible?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	But some are tight due to the layout of classrooms see 15.7
<b>15.8</b>	Does natural and artificial lighting avoid glare and silhouetting for people with visual impairments?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	This could be the way the sun casts shadows in a corridor or room that makes it difficult for people with a visual impairment to see the route or layout of a room clearly. This could also be objects put on windows that cast shadows. Some anti-glare and blinds but again due to the nature/age of the build there will still be some potential issues in some classrooms.
<b>15.9</b>	Are there visual clues for people to navigate?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	These are usually floor numbers, names of rooms, specific colours or directional markings that helps people understand where they are and indicate where people need to go to reach a specific area.
<b>15.10</b>	Do floor surfaces allow ease of movement for wheelchair users?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Consider things like different flooring e.g. lots of changes from carpet to hard floor to rubber and if there are raised lips between. How thick the pile is in the carpet? This can make wheeling difficult.

<b>15.11</b>	Do floor surfaces avoid light reflection and sound reverberation?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Lots of different flooring e.g. shiny floors with glare to matt flooring and back can make navigation difficult for some people. Empty corridors with hard surfaces can make sound reverberate and make it difficult to understand conversations or announcements. Well-positioned furniture or soft art on the walls can make a lot of difference.
<b>15.12</b>	Are direction and/or information signs visible from both sitting and standing eye levels? Are they in sentence case, and large enough type to be read by those with impaired vision?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	As with external signage consideration should be given to location, contrast, fonts and imagery used.
<b>15.13</b>	Is lighting designed to meet a wide range of needs?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	The type of lighting can make a difference for people with visual impairments and some people with neurodiverse conditions; the general rule is corridors and general areas should be around 300 lux and reception/where ICT is being used around 500 lux.
<b>15.14</b>	Are rooms maintained to reduce hazards for people with visual disabilities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<b>15.15</b>	Are there quiet spaces for people to go when needed?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Some people may have low moods or sensory overload; having a quiet area will help them manage this.
<b>15.16</b>	Can you adjust lighting and noise to be softer to reduce stress and sensory overload in specific areas?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Bright lighting can have a negative impact on some people that struggle with sensory overload or have some forms of visual impairment, being able to dim the lights within an area/room can help people self-manage
<b>15.17</b>	Are seating arrangements/spaces suitable for use by people with visual impairments?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Consider the layout of the room, and the colour contrast of chairs/tables to background colours. Good contrast can help people navigate and be independent. We feel this could be improved but considering the issues with the building 'yes'.
<b>15.18</b>	Are seating arrangements/spaces suitable for wheelchair users/people with limited balance?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Consider how wheelchair users access seating areas and tables: can they be part of their group/class or do they have to sit separately from their classmates? Do chairs have solid or locking wheels to stop them from moving if a person is transferring, and do some chairs have arm rests to help people stand? A mixed environment is best. Can wheelchair users access and get their legs under tables? As far as possible given that classrooms are small in some areas of school.
<b>15.19</b>	Are furniture, whiteboards, books, resources etc. at a height and location that allows them to be accessed by all?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Consider height so that all can reach and interact, and consider location regarding obstacles preventing people to access.
<b>15.20</b>	Are serveries/counters accessible to all users, including those with hearing impairments?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Food serveries in shops and restaurants can enable people to be independent if at the right height (approx. 700mm) and designed correctly. Where this isn't possible, is there someone available to

					assist? Is there a hearing loop at the till serving area? Are menus and other information easy to read or is there assistance available for people that may need it?
15.21	If the building has fixed seating are there also associated spaces for wheelchair users and at regular intervals on long routes?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	This might be in assembly, in the dining area or in a sports hall where fixed seating or benches are used.
15.22	Is it possible for wheelchair users and people with other disabilities to approach and use all vending machines/drinking water dispensers etc.?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Consider height of coin slot, information displayed and how items are dispensed.
15.23	Are all fittings readily distinguishable from their background?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	This could be switches, power door pads, coat hooks or other fixtures. Good contrast between walls and fixtures will help independence. This doesn't mean redecorating; having a contrasting colour plate behind the fixture will help.
15.24	Where there are display stands, bookstalls etc., are they visible/reachable/accessible by people with disabilities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
15.25	Is any staff accommodation suitable for use by people with disabilities including wheelchair users, with slip-resistant floor, reduced-level kitchen units and sink and lever action taps?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Staffroom kitchen not accessible for a wheelchair user.
15.26	Is the main reception area equipped with induction loops for people with hearing aids?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
15.27	Are all areas for assemblies/meetings equipped with an induction loop system?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Some areas may not be suitable and there are different solutions depending on building, location and need – consider getting advice.
15.28	If induction loops are not fitted in all areas, do you have portable induction loops available for deaf and hard of hearing people?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	As above
15.29	Are relevant induction loops within teaching areas linked to A/V equipment?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	This will enable some people to better hear video and audio content or be part of a video/audio call.
15.30	Is the functioning and operation of induction loops checked regularly?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Should be checked at least monthly, ideally more.
15.31	Are telephones fitted with inductive loop couplers?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	This will be in the specification of the telephones; it better enables people with hearing aids to use a telephone.
